WEB DESIGN

Task 3

Naolene Borg

Part one

For my website, I did some research on other celebrities' websites and two which I really liked were by 'Lizzo' and 'Katy Perry'. I wanted a clean layout rather than a busy one, so I got inspired mainly for the layout from Izzo, Clean plain and simple. The website   navigation is pretty easy and basic so it can be user friendly with everyone.

Differences from the planning to the actual website.

Color palettes- I did not use the whole color palette because as I was going along I did not like the outcome of it. Also, I chose a shade of pink which when I saw the website in that color, I really did not like it, so I toned it down a bit and made it a bit lighter. Instead of having the purple shades I chose to use the primary blue colors for the buttons as I thought it made more contrast rather than having it on the "same scale of color".

Navigation bar   # f8f9fa   #ffffff

An error that I encountered was the linking from the shop page to another website. I had three cards in total and two of them worked well but the other one was taking me to the same page (shop page). I copied the same exact code and pasted it in the different card but for some reason it was not linked to the website.

Takes you back to the shop page

Icons- I did not use them as I linked them directly the website like Spotify etc. (Like I said in the other task)

Contact page- Didn't include any images so the focus would be on the contact details and and to have a clean layout.

Wire frames- I did not make it exactly as the wireframes because I found a way to make the website usability easier and more efficient

Validation of code

I used the link that the teacher provided but I had some errors which I couldn't change. When I used bootstrap and edited the code immediately and if I changed.
